Description

250 mg DHA / 125 mg EPA.

By replacing your fish oil with Testa Omega 3 Algae Oil, we save 38 fish per package. Testa is pure, fish-free and vegan.

Testa Omega 3

- 100% vegetable Omega-3 from algae
- Capsule made from seaweed extract
- Algae are high in DHA + EPA fatty acids, good for heart, brain and eyes

Omega-3 from algae

Omega-3 DHA + EPA fatty acids are mainly found in oily fish, but if you eat little to no fish it is difficult to take in enough Omega-3. Algae are high in Omega-3 and are the superfood for fish. Testa Omega-3 made from algae is a vegetable and especially environmentally friendly alternative for fish or fish oil capsules.

Ingredients

Algae oil from schizochytrium sp., glycerol, modified corn starch*, carrageenan, high oleic sunflower oil, d-alpha tocopherol, rosemary extract, antioxidants (tocopherols and ascorbyl palmitate) and acidity regulator (sodium carbonate).

Testa Omega-3 uses absolutely no genetically engineered ingredients, no preservatives and no sweeteners, flavours or colours.

*'Modified' Corn Starch only means the corn starch is 'modified', not to confuse with 'Genetically Modified'. For the corn starch it means it's heated so it gets binding properties, which is required for the capsule shell.

Usage

1 capsule per day, swallow in its entirety with water, preferably together with a meal. Food supplements cannot be used as a substitute for a varied and healthy eating pattern. Store in a cool and dry place, out of reach of young children. As with every food supplement, consult with a professional before use in case of pregnancy, lactation, illness or medicine use.
